PUTNAM

Out at Hartford one of the state's leading democratic papers is trying to start something by naming a republican candidate for state treasurer to succeed the present incumbent, G. Harold Glipatric, of this city. When the time comes for naming a candidate for state treasurer on the republican ticket the chances altogether are that the republicans will have something to say about it—and propaganda will not amount to the price of the valuable white paper now being wasted by a leading organ of the opposition party. The chances decidedly are that Treasurer Glipatric will be a nominee of the republicans to succeed himself.

DANIELSON AND PUTNAM NEWS

DANIELSON

In influential republican circles through the state the name of Milton S. Shumway, former associate justice of the supreme court of Connecticut, is being mentioned every time that prospective nominees for the republican choice for governor are discussed. While it is too early yet to venture a prediction whom the republicans of Connecticut will select, it is known that Judge Shhmway's name is frequently mentioned, and hy many republican leaders he is regarded as the logical candidate of his party. Year's greatest picture, Male and Female, Majestic theater, Friday and Saturday—adv.

Saturday.—adv.

Through the efforts of Luther Piling of the General Supply company and the General Eclipse company, two concerns doing business in Danielson, and selling goods all over the United States, the sale of what for many years has been known as the Whitestone mill property at East Killingly has been brought about, and the the transaction means that Killingly, eastern Connecticut's most rapidly growing town, its going to have another new and valuabye textile industry.

growing town, its going to have another new and valuably textile industry.

This is the industrial deal that has been hinted at in press items sent out from Danielson during the past week. Through the agreements that have been entered into the Ewing Textile company of New York and Philadelphia has purchased the Whitestone property from the Winterbottom Bookcloth company, of England, which has owned the plant for several years past. The concern that has taken over the plant is a going concern, has a tremendous demand for its products at the present time and promises to Killingly a new manufacturing industry different from any doing business here.

Mr. Pilling said Wednesday morning that the company proposes to bagin immediately its plans for putting the property into such a condition as will be necessary for carrying on the business to be done.

The reconstruction plans include overhauling the idle mill and renovation of the tenement houses and other buildings that are involved in the deal.

The fabric to be manufactured is an

The fabric to be manufactured is an The fabric to be manufactured is an improvement over what is popularly known as Palm Beach cloth. The demand for this fabric always has exceeded the supply, and there is not the slightest indication of any let up in this demand, which comes not only from the United States, but from all countries where white men live in trong climes.

The new plant will give employment to from 75 to 100 employes, and it is already indicated that the ware scale will be sufficiently generous to attract employes even in competition with the remarkable wage scales now being paid in a number of textile mills in this vicinity.

Alfred Pate, who has been the superintendent of the mill of the Danielson Cotton company up to recently, is to be the active and maaging head of the Ewing Textile company's enterprise here, and this is assurance that the business will be in capable and experienced hands and argues well for its success.

The property involved in the deal

payrolls and left its mark upon the industrial history of the town of Killingly.

The company in which Mr. Leavens was interested was known as the Whitestone company, and that name has since clung to the property, notwithstanding that the American Woolen company now has a mill at Elmville, in this town, on what is known as the Whitestone (a corruption of Whitestone) brook registered as the Whitestone Woolen company.

With the passing of the Whitestone companily in which Mr. Leavens was interested the property reverted to Miss Elizabeth Westcott of Danielson, an heir of Henry T. Westcott. There was not much activity at the plant for several years, but finally, in 1904, it was sold by Frank T. Pression an executor of the will of Miss Wescott, to F. O. Davis, a real estate agent of Pomiret, and on the same day transferred to M. H. Marcus and Brother of New York, who successfully engaged in the manufacture of stairpads, comfortables and other products. This concern operated the plant until 1909.

Following the departure of the

Following the departure of Marcus company, which removed its business elsewhere, there came to the plant the Whitestone Bleaching and Dyeing company, the concern re-(Continued on Page 11, Column 5).

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like streng liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoe with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

Asthma

Is Dangerous

Felly To Disregard Its Warning.

Asthma is not only a disagreeable affiletien but a dangerous one. The constant difficult breathing, the cheked up air passages, the struggle for air, the loss of rest, combine to force a great strain on the nervous system and neart—often too great a strain to stand.

Roy Chapdelaine, formerly of Putmam, but for a number of years employed in Providence, is sending cards
to friends in Putnam. "How would
you like a taste?" he inquires on
cards postmarked at Tampico, Mexico, where, evidently, they have other
things than revolutionists.

Miss Elizabeth Barnes has returned
from an Easter season visit with
friends at Washington, D. C. neart—often too great a strain to stand.

It is the worst of folly to neglect such a condition or to continually treat with ordinary narcotic medicines, drugs, inhalers, smokes, or douches which merely give temporary rollef from the choking paroxysms and do not relieve or correct the real cause of the trouble. Instead get from Lee & Osgood or any druggist a small bottle of Oxidaze (essential oil) tablets and take one at short intervals whenever distress is felt and one or going to bed. Instead relief is usually felt and in addition the effect of consistent treatment is to gradually bring about a greatly improved health condition as the symptoms of asthma disappear forever. Oxidaze is the successful prescription of a Worcester, Mass., physician and it treatment of asthma, even in the very worst forms, has probably never been excelled.

Lee & Osgood sell it and patients find it a safe, pleasant and inexpensive treatment to use. from an Easter season visit with friends at Washington, D. C.

Darrow A. Horton, 43, died at his home in Abington, where he has been a resident practically all his life, Mr. Horton leaves his wife.

Miss Alice Sherman, chief operator at the S. N. E. T. company central station here, and Manager Carl T. Kent of the Danielson, Putnam and Moosup divisions of the S. N. E. T. company, attended a conference of telephone people at Norwich Wednesday afternoon.

Out at Hartford "Souvenir" W. H. Taylor is busily engaged in flashing this message around the state to thousands of his friends: "Twixt optimist and pessimist, the difference is droll—the optimist sees the doughnut; the pessimist sees the hole," It is a pleasant reflection for Putnam people that Mr. Taylor always claims Putnam as his real home. Hartford has him, but he is Putnam's own.

A few people curled up and almost died Wednesday afternoon when the skies darkened and snow flurries filled the air, giving promise of another period of weather such as "the worst winter in a hundred years" furnished. But the sun will be shining brightly again this morning.

Out at Hartford one of the state's

himself.

Captain J. H. Bulger is on the trail of Putnam's Jakey brigade. It appears that this prohibition-times drink, which varies anywhere from \$7 1-2 to \$3 per cent, of alcohol, is being sold wholesale in Putnam. The active head of the police department has quietly been making some investigations during the past few days and has learned a few things of more than passing interest. For instance, the captain has been informed that one grocery store disposed of a gross—144 bottles—of Jamaica ginger within one week. This was at just one place. What the total sales were here during the same peried is assumed to have been many times that amount.

The comman council of this city has voted that the pay of members of the fire department be increased from \$30 to \$40 a year, this being segarded as none too much for active members of a volunteer department. The council has also voted to boost the salary of the chief engineer from \$175 to \$300 a year and to give substantial increases to the assistant engineers, who are to receive \$100 a year.

The council also showed favorable GRAND MARCH AT 9 SHARP tives in Worcester and Springfield.
Raymond Gannon, the Providence motor truck driver, who was injured in an accident at Danielson Monday evening, remained in a critical condition at the Day Kimball hospital on Wednesday.

A motor 'bus service has been es-tablished between this city and Web-ster, an extension of the service that formerly ran from Putnam to North

Due to the fact it will be necessary this year to have the Farmers' Asso-ciation budget made up by the first of July, three months earlier than has ordinarily been the case, a mem-bership drive was decided upon on Monday at the meeting of the executive committee and town directors of the association. Five hundred new members is the goal which the mem-bership committee desires. Mr. Dan-ielson, secretary of the Farmers' Association, is having printed member-ship cards which will go to all those who become members of the associa-

At a meeting of the officers of the Farmers' Association held Monday at the association rooms, the following were present: President, Everett E. Brown; vice president, S. H. Peckham; secretary-treasurer, Whitman Danielson: Louis F. Barstow, town di-rector, Killingly; John R. Stromberg, town director, Pomfret; Mrs. Grace

actively engaged in caring for the children's teeth before the first of May.

The following relative to the marriage of Henry Frank Joy, who has a fruit farm in Woodstock, was sent from Windsor, this state, Tuesday:
Henry Frank Joy, son of Mrs. Gertrude M. Joy of Hartford, and Miss Annette Wood Pomeroy, daughter of Mr. and Mrs. Eleazer Pomeroy of Bloomfield avenue, were married in Grace church yesterday afternoon. Rev. Dr. F. W. Harriman, rector, officiated. The double ring service was used. The bride was given in marriage by her father and the maid of honor was Miss Elizabeth White Edry of this place, who is a student at Columbia University, and was a classmate of the bride at the Loomis Institute, Howard E. Green of Westfield, Mass., a member of the class of 1917. Loomis Institute, was best man. He is now a student at the Massachusetts Agricultural College. The ushers were Owen S. Hart fo Meriden, Roger M. Keney and David N. Keney of Rockville and Jeffrey J. Hammel of Windsor. All were classmates of the bridegroom at the Loomis Institute and the last named is now one of the masters at the school. Mrs. Frank G. Snelgrove played the organ and her brother, James A. Nichols, played the violin. For the processional, the wedding march from Lohengrin was played and the recessional was from Mendelssohn's.

The bride's dress was of white satin and she wore a veil which was caught up with orange blossoms. She carried a bouquet of bridal roses and illies of the valley. The bride mad's dress was of blue organdie and she wore a black picture hat. She carried a bouquet of the same shool, class of 1918. Owing to Illness of the brides mother, the reception which was planned to take place after the widding party returned to the houre of the bride.

After a short wedding trip Mr. and Mrs. Joy will make their home at Drumlin Farim, Woodstock, where Mr. Joy is to conduct a large fruit enterprice. Mr. Joy took the agricultural and scientific farming course at Loomis and has made further study of the work that he is undertaking. PEBB — BELHUMEUR — In Taftville, April 7, 1920, by Rev. O. U.
